

INSPECTION SUMMARY

Evaluation under Legal Metrology (Packaged Commodities) Rules, 2011 (as amended)

FINAL COMPLIANCE VERDICT:

! REVIEW

Overall Score: **63.3%** (Evidence-based evaluation)

PASS: 4 | REVIEW: 11 | FAIL: 0

PRODUCT INFORMATION

Product Name	QUAKER ROLLED OATS	Product Category	Packaged Food
Net Quantity	1 kg	Retail Price (MRP)	Rs. 199.00
Batch / Lot No.	TV230923	Packed On Date	23/09/2023
Manufacturing Date	23/09/2023	Best Before	12 Months
Use By / Expiry	22/09/2024	Country of Origin	India
Manufacturer / Packer	PepsiCo India Holdings Pvt Ltd	Marketed By	PepsiCo India Holdings Pvt Ltd
Manufacturer Address	DLF Cyber City, Phase-II, Gurugram - 122002, Haryana, India	Consumer Contact	1800-22-4020 / consumer.feedback@pepsico.com

MANDATORY DECLARATIONS (RULE 6)

Declaration / Check	Status	Detected Value	Evaluation / Short Explanation
Manufacturer / Packer	✓ PASS	PepsiCo India Holdings Pvt Ltd	A manufacturer/packer/importer identity and associated address were evaluated.
Product Name	✓ PASS	QUAKER ROLLED OATS	Product Name declaration was evaluated.
Net Quantity	✓ PASS	1 kg	Net quantity declaration was evaluated.
Manufacturing / Packing Date	✓ PASS	23/09/2023	Relevant date declaration was evaluated.
Best Before / Use By	✓ PASS	12 Months	Relevant date declaration was evaluated.
MRP (Incl. of all taxes)	✓ PASS	Rs. 199.00	An explicitly labelled MRP declaration was evaluated.
Consumer Contact	✓ PASS	1800-22-4020 / consumer.feedback@pepsico.com	Consumer care contact details were evaluated.
Country of Origin	— N/A	India	Country of origin declaration was evaluated.
Unit Sale Price	✓ PASS	Not Declared	A separate unit sale price declaration was evaluated under Rule 6(11).

ITEMS REQUIRING ATTENTION

Rule & Requirement	Status	Evidence	Recommended Action
3 Applicability of the Chapter	! REVIEW	The package appears within the general scope, but image evidence alone does not establish every Rule 3 exclusion.	Verify the package against the Rule 3 exclusions when required.

6 Declarations to be made on every package	! REVIEW	Statutory declarations evaluated: 3 satisfied, 6 require verification, 1 not applicable.	Verify this requirement using the applicable package, commodity or transaction context.
7 Principal display panel — area, size and lettering	! REVIEW	OCR bounding boxes provide measurable relative text-size evidence, but physical letter/numeral height cannot be proven from pixels alone.	Use a calibrated image or physical reference to verify the principal-display-panel area and prescribed letter/numeral height.
8 Declaration where to appear	! REVIEW	OCR geometry now provides relative declaration-position evidence, but the Principal Display Panel and complete legal placement requirements require package-layout interpretation.	Verify applicable declarations against the prescribed location and Principal Display Panel requirements.
9 Manner in which declaration shall be made	! REVIEW	OCR confidence provides supporting visibility evidence, but image-only analysis cannot conclusively establish every legibility, prominence and prescribed-manner requirement.	Verify legibility, prominence, contrast and prescribed language/display requirements.
10 Declaration of name and address of the manufacturer, etc.	! REVIEW	The identity and address were extracted, but supporting OCR evidence could not be matched reliably.	Verify the responsible-party declaration visually.
11 Declaration of quantity	! REVIEW	The declared quantity is visible, but actual quantity accuracy cannot be established from a label image alone.	Verify the physical quantity using an appropriate verified weighing/measuring method.
18 Provisions relating to wholesale and retail dealers	! REVIEW	The available image/OCR evidence is insufficient for a definitive automated determination.	Verify this requirement using the applicable package, commodity or transaction context.
23 Deceptive packages	! REVIEW	The available image/OCR evidence is insufficient for a definitive automated determination.	Verify this requirement using the applicable package, commodity or transaction context.
26 Exemptions in respect of certain packages	! REVIEW	The available image/OCR evidence is insufficient for a definitive automated determination.	Verify this requirement using the applicable package, commodity or transaction context.
28 Registration of shorter address	! REVIEW	Shorter registered address requires registration records.	Verify whether the manufacturer has registered a shorter address under Rule 28.

VISUAL INSPECTION SUMMARY

OCR Mean Confidence	95.5%	Median Text Height	18.5 px
Detected Text Blocks	6	Min / Max Height	9.2 / 42.0 px
Bounding Boxes Mapped	6	Local Image Contrast	0.88
Text Size (Rule 7):	! REVIEW	Placement (Rule 8):	! REVIEW
Readability (Rule 9):	! REVIEW		

RULE COMPLIANCE SUMMARY (ALL RULES)

Rule	Requirement	Status	Evidence / Summary	Recommendation
1	Legal Metrology (Packaged Commodities) Rules, 2011 baseline.	— OUT OF SCOPE	Short title and commencement provision; general statutory framework, not an on-package declaration requirement.	None
2	Definitions are interpreted according to the Rules.	✓ PASS	Rule 2 is an interpretive provision rather than a package declaration check.	None
3	Chapter II applicability must be determined from package type and legal exclusions.	! REVIEW	The package appears within the general scope, but image evidence alone does not establish every Rule 3 exclusion.	Verify the package against the Rule 3 exclusions when required.
4	Package should bear applicable required declarations.	✓ PASS	The rule is applicable and declaration checks are evaluated through the relevant declaration rules.	None
6	Package shall bear all applicable mandatory declarations under Rule 6.	! REVIEW	Statutory declarations evaluated: 3 satisfied, 6 require verification, 1 not applicable.	None
7	Principal display panel and prescribed letter/numeral dimensions must satisfy the Rule.	! REVIEW	OCR bounding boxes provide measurable relative text-size evidence, but physical letter/numeral height cannot be proven from pixels alone.	Use a calibrated image or physical reference to verify the principal-display-panel area and prescribed letter/numeral height.

8	Required declarations should appear in the prescribed location and principal display panel where applicable.	! REVIEW	OCR geometry now provides relative declaration-position evidence, but the Principal Display Panel and complete legal placement requirements require package-layout interpretation.	Verify applicable declarations against the prescribed location and Principal Display Panel requirements.
9	Declarations should be legible, prominent and presented in the prescribed manner.	! REVIEW	OCR confidence provides supporting visibility evidence, but image-only analysis cannot conclusively establish every legibility, prominence and prescribed-manner requirement.	Verify legibility, prominence, contrast and prescribed language/display requirements.
10	Manufacturer / packer / importer name and applicable address.	! REVIEW	The identity and address were extracted, but supporting OCR evidence could not be matched reliably.	Verify the responsible-party declaration visually.
11	Net quantity must be accurately declared; image analysis alone cannot verify the actual physical quantity.	! REVIEW	The declared quantity is visible, but actual quantity accuracy cannot be established from a label image alone.	Verify the physical quantity using an appropriate verified weighing/measuring method.
12	Quantity declaration in the appropriate mass, volume, length, area or number form.	✓ PASS	The detected solid/semi-solid commodity uses a mass declaration.	None
13	Applicable prescribed unit of weight, measure or number.	✓ PASS	The quantity uses a recognized prescribed/SI-compatible unit or number/unit form.	None
14	Commodity-specific dimensional requirements must be verified where applicable.	— N/A	The rule does not apply to the detected package context.	None
15	Where quantity/price depends on dimensions or weight, the applicable requirement must be verified.	— N/A	The rule does not apply to the detected package context.	None
16	Sheet count and dimensions must be checked for applicable commodities.	— N/A	The rule does not apply to the detected package context.	None
17	Container dimensions/requirements must be checked where applicable.	— N/A	The rule does not apply to the detected package context.	None
18	Dealer-specific requirements and sale price conditions require transaction/business-context evidence.	! REVIEW	The available image/OCR evidence is insufficient for a definitive automated determination.	Verify this requirement using the applicable package, commodity or transaction context.
19	Inspection of quantity and error at manufacturer/packer premises under the Third Schedule.	— OUT OF SCOPE	Requires physical inspection, measurement, sampling or enforcement evidence that cannot be reliably established from a package image.	None
20	Action on non-compliant lots at manufacturer premises.	— OUT OF SCOPE	Requires physical inspection, measurement, sampling or enforcement evidence that cannot be reliably established from a package image.	None
21	Testing of net quantity at dealer premises.	— OUT OF SCOPE	Requires physical inspection, measurement, sampling or enforcement evidence that cannot be reliably established from a package image.	None
22	Net quantity within Maximum Permissible Error prescribed under the First Schedule.	— OUT OF SCOPE	Requires physical inspection, measurement, sampling or enforcement evidence that cannot be reliably established from a package image.	None
23	Package size/appearance must not be deceptive in relation to quantity.	! REVIEW	The available image/OCR evidence is insufficient for a definitive automated determination.	Verify this requirement using the applicable package, commodity or transaction context.
24	Wholesale-package declarations must be checked where the package qualifies as a wholesale package.	— N/A	The rule does not apply to the detected package context.	None
25	Export-package conditions require package destination and sale context.	— N/A	The rule does not apply to the detected package context.	None
26	Any applicable exemption must be determined from package type and legal conditions.	! REVIEW	The available image/OCR evidence is insufficient for a definitive automated determination.	Verify this requirement using the applicable package, commodity or transaction context.
27	Registration with the Director or Controller.	— OUT OF SCOPE	Registration is an administrative requirement and cannot be established from a package image alone.	None
28	Shorter address registered with the Controller/Director where applicable.	! REVIEW	Shorter registered address requires registration records.	Verify whether the manufacturer has registered a shorter address under Rule 28.
29	Maintenance of registration records by the Controller or Director.	— OUT OF SCOPE	Registration records are administrative evidence.	None

30	Circulation of registered entities list by the Central Government.	— OUT OF SCOPE	Registered manufacturer lists are administrative records.	None
31	Advertisement mentioning retail price must declare net quantity and unit sale price.	— N/A	Current scanned item is a package image, not a print or digital advertisement mentioning retail sale price.	None
32	Penal provisions under Section 29/39 of the Act.	— OUT OF SCOPE	Penal provision for contravention under the Act; applies post-adjudication, not an on-package declaration.	None
33	Administrative power of Central Government to relax rules in public interest.	— OUT OF SCOPE	Central Government administrative power to relax rules in the public interest.	None
34	Repeal of Standards of Weights and Measures (Packaged Commodities) Rules, 1977.	— OUT OF SCOPE	Statutory transition provision repealing the Standards of Weights and Measures (Packaged Commodities) Rules, 1977.	None

KEY OCR & VISUAL EVIDENCE

Target Declaration	Extracted Text	Confidence	Bounding Box (X1, Y1, X2, Y2)
6(1)(a)	MANUFACTURED BY PEPSICO INDIA	95.0%	[100, 400, 520, 450]
6(1)(b)	QUAKER ROLLED OATS	98.0%	[100, 100, 400, 150]
6(1)(c)	NET WEIGHT 1 kg	97.0%	[100, 200, 350, 250]
6(1)(d)	23/09/2023	95.0%	Mapped
6(1)(da)	USE BY 22/09/2024	94.0%	[100, 500, 400, 550]
6(1)(e)	MRP Rs. 199.00 INCL. ALL TAXES	96.0%	[100, 300, 420, 350]

RECOMMENDED ACTIONS FOR INSPECTOR

- 1. Verify the package against the Rule 3 exclusions when required.
- 2. Use a calibrated image or physical reference to verify the principal-display-panel area and prescribed letter/numeral height.
- 3. Verify applicable declarations against the prescribed location and Principal Display Panel requirements.
- 4. Verify legibility, prominence, contrast and prescribed language/display requirements.
