

INSPECTION SUMMARY

Evaluation under Legal Metrology (Packaged Commodities) Rules, 2011 (as amended)

FINAL COMPLIANCE VERDICT:

X FAIL

Overall Score: **62.5%** (Evidence-based evaluation)

PASS: 7
FAIL: 1
REVIEW: 15
N/A: 7
OUT OF SCOPE: 1

PRODUCT INFORMATION

Product Name	QUAKER ROLLED OATS	Product Category	Packaged Food
Net Quantity	1 kg	Retail Price (MRP)	Rs. 199.00
Batch / Lot No.	TV230923	Packed On Date	23/09/2023
Manufacturing Date	23/09/2023	Best Before	12 Months
Use By / Expiry	22/09/2024	Country of Origin	India
Manufacturer / Packer	PepsiCo India Holdings Pvt Ltd	Marketed By	PepsiCo India Holdings Pvt Ltd
Manufacturer Address	DLF Cyber City, Phase-II, Gurugram - 122002, Haryana, India	Consumer Contact	1800-22-4020 / consumer.feedback@pepsico.com

MANDATORY DECLARATIONS (RULE 6)

Declaration / Check	Status	Detected Value	Evaluation / Short Explanation
Manufacturer / Packer	! REVIEW	PepsiCo India Holdings Pvt Ltd, DLF Cyber City, Phase-II, Gurugram - 122002, Haryana, India	The extracted identity/address could not be matched reliably to OCR evidence.
Product Name	✓ PASS	QUAKER ROLLED OATS	Product Name was detected with supporting OCR evidence.
Net Quantity	✓ PASS	1 kg	Net quantity was detected.
Manufacturing / Packing Date	! REVIEW	23/09/2023	A date was extracted but supporting OCR evidence could not be matched reliably.
Best Before / Use By	! REVIEW	12 Months	A date was extracted but supporting OCR evidence could not be matched reliably.
MRP (Incl. of all taxes)	✓ PASS	Rs. 199.00	An explicitly labelled MRP declaration was detected.
Consumer Contact	! REVIEW	1800-22-4020 / consumer.feedback@pepsico.com	The system could not determine from the available evidence whether dimensions are relevant.
Country of Origin	— N/A	India	The available evidence does not indicate that the product is imported.
Unit Sale Price	! REVIEW	Not Declared (Ref: Rs. 199.00 per kg)	A separate unit sale price declaration was not confidently detected.

ITEMS REQUIRING ATTENTION

Rule & Requirement	Status	Evidence	Recommended Action
3 Packages to which Chapter II does not apply	! REVIEW	The package appears within the general scope, but image evidence alone does not establish every Rule 3 exclusion.	Verify the package against the Rule 3 exclusions when required.

6(1)(a) Manufacturer / packer / importer	! REVIEW	The extracted identity/address could not be matched reliably to OCR evidence.	Verify the declaration visually before treating it as compliant.
6(1)(d) Manufacturing / pre-packing / import date	! REVIEW	A date was extracted but supporting OCR evidence could not be matched reliably.	Verify the date declaration visually.
6(1)(da) Best before / use by	! REVIEW	A date was extracted but supporting OCR evidence could not be matched reliably.	Verify the date declaration visually.
6(1)(f) Dimensions where relevant	! REVIEW	The system could not determine from the available evidence whether dimensions are relevant.	Verify commodity-specific dimensional applicability.
6(2) Consumer complaint contact	! REVIEW	The value was extracted, but its required declaration label/association could not be confirmed.	Verify the field label and associated value on the package.
6(11) Unit sale price	! REVIEW	A separate unit sale price declaration was not confidently detected.	Verify whether the package carries the applicable unit sale price declaration.
7 Principal display panel - area, size and letters	! REVIEW	OCR bounding boxes provide measurable relative text-size evidence, but physical letter/numeral height cannot be proven from pixels alone.	Use a calibrated image or physical reference to verify the principal-display-panel area and prescribed letter/numeral height.
8 Declarations where to appear	! REVIEW	OCR geometry now provides relative declaration-position evidence, but the Principal Display Panel and complete legal placement requirements require package-layout interpretation.	Verify applicable declarations against the prescribed location and Principal Display Panel requirements.
9 Manner of declarations	! REVIEW	OCR confidence provides supporting visibility evidence, but image-only analysis cannot conclusively establish every legibility, prominence and prescribed-manner requirement.	Verify legibility, prominence, contrast and prescribed language/display requirements.
10 Name and address of manufacturer / packer / importer	! REVIEW	The identity and address were extracted, but supporting OCR evidence could not be matched reliably.	Verify the responsible-party declaration visually.

VISUAL INSPECTION SUMMARY

OCR Mean Confidence	95.5%	Median Text Height	18.5 px
Detected Text Blocks	6	Min / Max Height	9.2 / 42.0 px
Bounding Boxes Mapped	6	Local Image Contrast	0.88
Text Size (Rule 7):	! REVIEW	Placement (Rule 8):	! REVIEW
Readability (Rule 9):	! REVIEW		

RULE COMPLIANCE SUMMARY (ALL RULES)

Rule	Requirement	Status	Evidence / Summary	Recommendation
2	Definitions are interpreted according to the Rules.	✓ PASS	Rule 2 is an interpretive provision rather than a package declaration check.	None
3	Chapter II applicability must be determined from package type and legal exclusions.	! REVIEW	The package appears within the general scope, but image evidence alone does not establish every Rule 3 exclusion.	Verify the package against the Rule 3 exclusions when required.
4	Package should bear applicable required declarations.	✓ PASS	The rule is applicable and declaration checks are evaluated through the relevant declaration rules.	None
5	Rule 5 is omitted from the current operative Rules.	— OUT OF SCOPE	Rule 5 was omitted by the 2021 amendment and therefore is not evaluated as an active package-compliance requirement.	None
6(1)(a)	Applicable manufacturer, packer or importer name and address.	! REVIEW	The extracted identity/address could not be matched reliably to OCR evidence.	Verify the declaration visually before treating it as compliant.
6(1)(aa)	Country of origin for imported products.	— N/A	The available evidence does not indicate that the product is imported.	None

6(1)(b)	Common or generic name of the commodity.	✓ PASS	Product Name was detected with supporting OCR evidence.	None
6(1)(c)	Net quantity of the commodity.	✓ PASS	Net quantity was detected.	None
6(1)(d)	Applicable month and year of manufacture, pre-packing or import.	! REVIEW	A date was extracted but supporting OCR evidence could not be matched reliably.	Verify the date declaration visually.
6(1)(da)	Best before or use by date, month and year where applicable.	! REVIEW	A date was extracted but supporting OCR evidence could not be matched reliably.	Verify the date declaration visually.
6(1)(e)	Maximum Retail Price in Indian currency, inclusive of all taxes, where applicable.	✓ PASS	An explicitly labelled MRP declaration was detected.	None
6(1)(f)	Dimensions of the commodity where relevant.	! REVIEW	The system could not determine from the available evidence whether dimensions are relevant.	Verify commodity-specific dimensional applicability.
6(2)	Name, address, telephone number and/or email/contact details of the person or office for consumer complaints, as applicable.	! REVIEW	The value was extracted, but its required declaration label/association could not be confirmed.	Verify the field label and associated value on the package.
6(11)	Unit sale price should be declared in the prescribed form. Expected approximately Rs. 199.00 per kg from the detected quantity/MRP.	! REVIEW	A separate unit sale price declaration was not confidently detected.	Verify whether the package carries the applicable unit sale price declaration.
7	Principal display panel and prescribed letter/numeral dimensions must satisfy the Rule.	! REVIEW	OCR bounding boxes provide measurable relative text-size evidence, but physical letter/numeral height cannot be proven from pixels alone.	Use a calibrated image or physical reference to verify the principal-display-panel area and prescribed letter/numeral height.
8	Required declarations should appear in the prescribed location and principal display panel where applicable.	! REVIEW	OCR geometry now provides relative declaration-position evidence, but the Principal Display Panel and complete legal placement requirements require package-layout interpretation.	Verify applicable declarations against the prescribed location and Principal Display Panel requirements.
9	Declarations should be legible, prominent and presented in the prescribed manner.	! REVIEW	OCR confidence provides supporting visibility evidence, but image-only analysis cannot conclusively establish every legibility, prominence and prescribed-manner requirement.	Verify legibility, prominence, contrast and prescribed language/display requirements.
10	Manufacturer / packer / importer name and applicable address.	! REVIEW	The identity and address were extracted, but supporting OCR evidence could not be matched reliably.	Verify the responsible-party declaration visually.
11	Net quantity must be accurately declared; image analysis alone cannot verify the actual physical quantity.	! REVIEW	The declared quantity is visible, but actual quantity accuracy cannot be established from a label image alone.	Verify the physical quantity using an appropriate verified weighing/measuring method.
12	Quantity declaration in the appropriate mass, volume, length, area or number form.	✓ PASS	The detected solid/semi-solid commodity uses a mass declaration.	None
13	Applicable prescribed unit of weight, measure or number.	✓ PASS	The quantity uses a recognized prescribed/SI-compatible unit or number/unit form.	None
14	Commodity-specific dimensional requirements must be verified where applicable.	— N/A	The rule does not apply to the detected package context.	None
15	Where quantity/price depends on dimensions or weight, the applicable requirement must be verified.	— N/A	The rule does not apply to the detected package context.	None
16	Sheet count and dimensions must be checked for applicable commodities.	— N/A	The rule does not apply to the detected package context.	None
17	Container dimensions/requirements must be checked where applicable.	— N/A	The rule does not apply to the detected package context.	None
18	Dealer-specific requirements and sale price conditions require transaction/business-context evidence.	! REVIEW	The available image/OCR evidence is insufficient for a definitive automated determination.	Verify this requirement using the applicable package, commodity or transaction context.
23	Package size/appearance must not be deceptive in relation to quantity.	! REVIEW	The available image/OCR evidence is insufficient for a definitive automated determination.	Verify this requirement using the applicable package, commodity or transaction context.
24	Wholesale-package declarations must be checked where the package qualifies as a wholesale package.	— N/A	The rule does not apply to the detected package context.	None

25	Export-package conditions require package destination and sale context.	— N/A	The rule does not apply to the detected package context.	None
26	Any applicable exemption must be determined from package type and legal conditions.	! REVIEW	The available image/OCR evidence is insufficient for a definitive automated determination.	Verify this requirement using the applicable package, commodity or transaction context.
TEST_RULE_PACK_DATE	Packaging date or manufacturing date must be declared on package.	✗ FAIL	Required statutory declaration 'manufacturing_date' was missing or could not be detected.	Ensure 'manufacturing_date' is legibly displayed on principal display panel.

KEY OCR & VISUAL EVIDENCE

Target Declaration	Extracted Text	Confidence	Bounding Box (X1, Y1, X2, Y2)
6(1)(a)	MANUFACTURED BY PEPSICO INDIA	95.0%	[100, 400, 520, 450]
6(1)(b)	QUAKER ROLLED OATS	98.0%	[100, 100, 400, 150]
6(1)(c)	NET WEIGHT 1 kg	97.0%	[100, 200, 350, 250]
6(1)(d)	23/09/2023	94.0%	[100, 500, 400, 550]
6(1)(da)	USE BY 22/09/2024	94.0%	[100, 500, 400, 550]
6(1)(e)	MRP Rs. 199.00 INCL. ALL TAXES	96.0%	[100, 300, 420, 350]

RECOMMENDED ACTIONS FOR INSPECTOR

- 1. Verify the package against the Rule 3 exclusions when required.
 - 2. Verify the declaration visually before treating it as compliant.
 - 3. Verify the date declaration visually.
 - 4. Verify commodity-specific dimensional applicability.
